

## **Advicenne receives marketing authorization and reimbursement for Sibnaya<sup>®</sup> in Saudi Arabia**

**Paris (France), July 28, 2025 – 7.30 am CEST** – Advicenne (Euronext Growth<sup>®</sup> - FR0013296746 - ALDVI), a pharmaceutical company specializing in the development and marketing of innovative treatments for people suffering from rare kidney diseases, obtains marketing authorization (MA) and reimbursement status for Sibnaya<sup>®</sup> (a fixed combination of potassium citrate and potassium bicarbonate) in the Kingdom of Saudi Arabia (KSA).

Marketing authorization for Sibnaya<sup>®</sup> (ADV7103) in distal Renal Tubular Acidosis (dRTA) in KSA has been granted, based on the European registration dossier. Furthermore, Saudi authorities have agreed a reimbursement rate in line with the best European pricing.

This achievement results of a close collaboration between Advicenne and its local partner, Taïba Healthcare, a leading distributor of pharmaceutical products in the Gulf region. Advicenne will act as the marketing authorization holder, while Taïba Healthcare will manage local marketing activities.

The incidence of dRTA is higher in Gulf countries than in Europe or the United States, and prevalence in KSA could be estimated around 600 to 800 patients. Sibnaya<sup>®</sup> is already prescribed through early access programs in several Gulf countries outside Saudi Arabia. This milestone paves the way for registrations in GCC countries where the application is filed.

**Didier Laurens, CEO of Advicenne, declared:** *"I am particularly proud of this important achievement and wish to congratulate both Advicenne and Taïba Healthcare teams, whose efforts were instrumental in informing and convincing the Saudi health authorities. The reimbursement obtained, comparable to the highest levels recorded in Europe, further attests to the significant therapeutic value of Sibnaya<sup>®</sup> in a region with one of the highest prevalence rates of dRTA worldwide."*
